# ADVANTAGES

## 3D ACRYLLIC

The depth and intensity of a wide color palette thanks to high quality american 3D acrylic. Acrylic is more durable and resistant to the ultraviolet radiation and temperatures in comparison with epoxy.

## CATCHING DESIGN

Geometric purity of forms, conciseness and stunning bright elements. Make is definitely pleasing to the eye at home, in a lounge, in the office, in nature.

## HIGH QUALITY

High-end materials (stainless steel, durable german polyacetal, american 3D acrylic) and impeccable perfect technology allows you to achieve excellent quality.

## ATTENTION TO DETAIL

It is often said that the devil is in details. Everything from tray to flushing is designed in the same style and worked out to the last detail. Exclusive production of colored gaskets without pvc.
